The Colonnade is a new addition on the campus horizon. Welcome neighbor!

## TEMPLE GRAY, CASTLE HOLD, CATCH THE SUNSET GLORY

Spring Will Be A Little Late This Year

"She loves me . . . she loves me not!"

Huck Finn and Tom Sawyer (Bobby Clark and Joseph Melillo) take time out at lunch to cast their luck. Anyone for a raft?

# A TREASURE HOUSE OF

In the June 1961 edition of the Athenaeum, the editors have tried to encompass within these covers our experiences and joys as students of Barringer High School.

These have been four happy years—years of growth and achievement. We have matured, developed new attitudes, enforced our sense of values, put aside obsolete concepts, and fallacious prejudices. Wider dimensions of knowledge have been opened to us. New horizons were explored and investigated. Many of us developed drives, goals, and a significant purpose of life. Life promises to put us to the test. We will try to prove our worth.

A democracy cannot exist without effective citizen participation. Helen Fuss and Nick Spagnoletti learn the mechanics of voting.

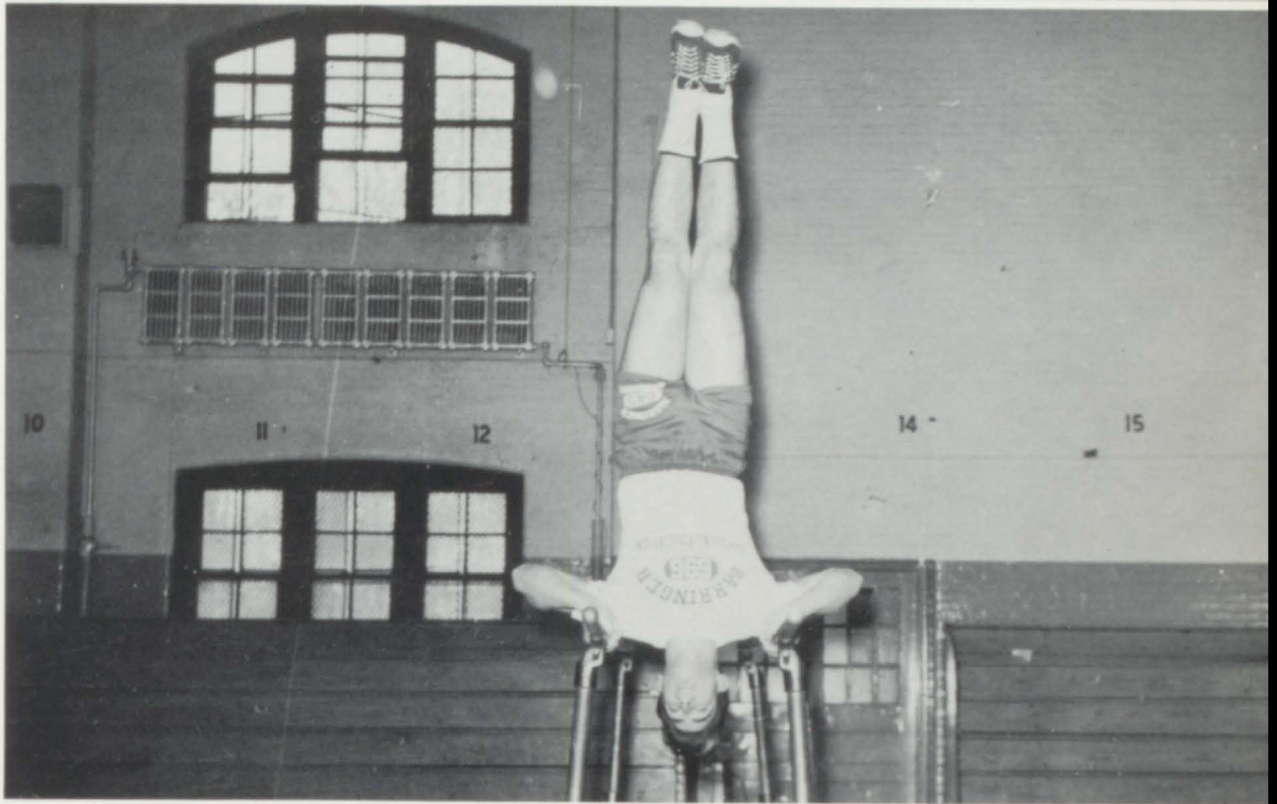

A sound character combined with an ethical code is insurance that intelligence will be used for good purposes. Student volunteers work at the Hospital for Crippled Children every afternoon.

# LEARNING AND LIVING

"I am a part of all that I have met."

ALFRED TENNYSON

Good health is indeed our most precious asset. A well coordinated physical education program stresses healthy exercise and preventive medicine.

Brain power is responsible for this nation's economic, political, and scientific proficiency. High academic standards of scholarship are a tradition at Barringer High School.

# DEDICATION

To Our Lovely Lady,  
Miss  
Mildred  
Ferraro

MISS MILDRED FERRARO

We, the Senior Class of June, 1961 would like, at this time, to express our sincerest gratitude for the fine work our teacher, counselor, and friend, Miss Mildred Ferraro, has done on behalf of our class. In recognition of her untiring efforts on our behalf, we hereby dedicate our yearbook to her.

Often sought for advice and comfort, Miss Ferraro has always been approachable, sympathetic, encouraging, inspiring, and sincere. We now realize that her advice and guidance were essential to our becoming mature individuals in a world complicated by much turbulence.

She has diligently helped us to help ourselves reap the benefits of our high school years, and she persistently urged us to pursue higher education.

As a result of Miss Ferraro's charm and warmth, she has gained the confidence and trust of even the shyest students.

Her classes are stimulated by the discussion of vital controversial issues, and her students are challenged to think in depth.

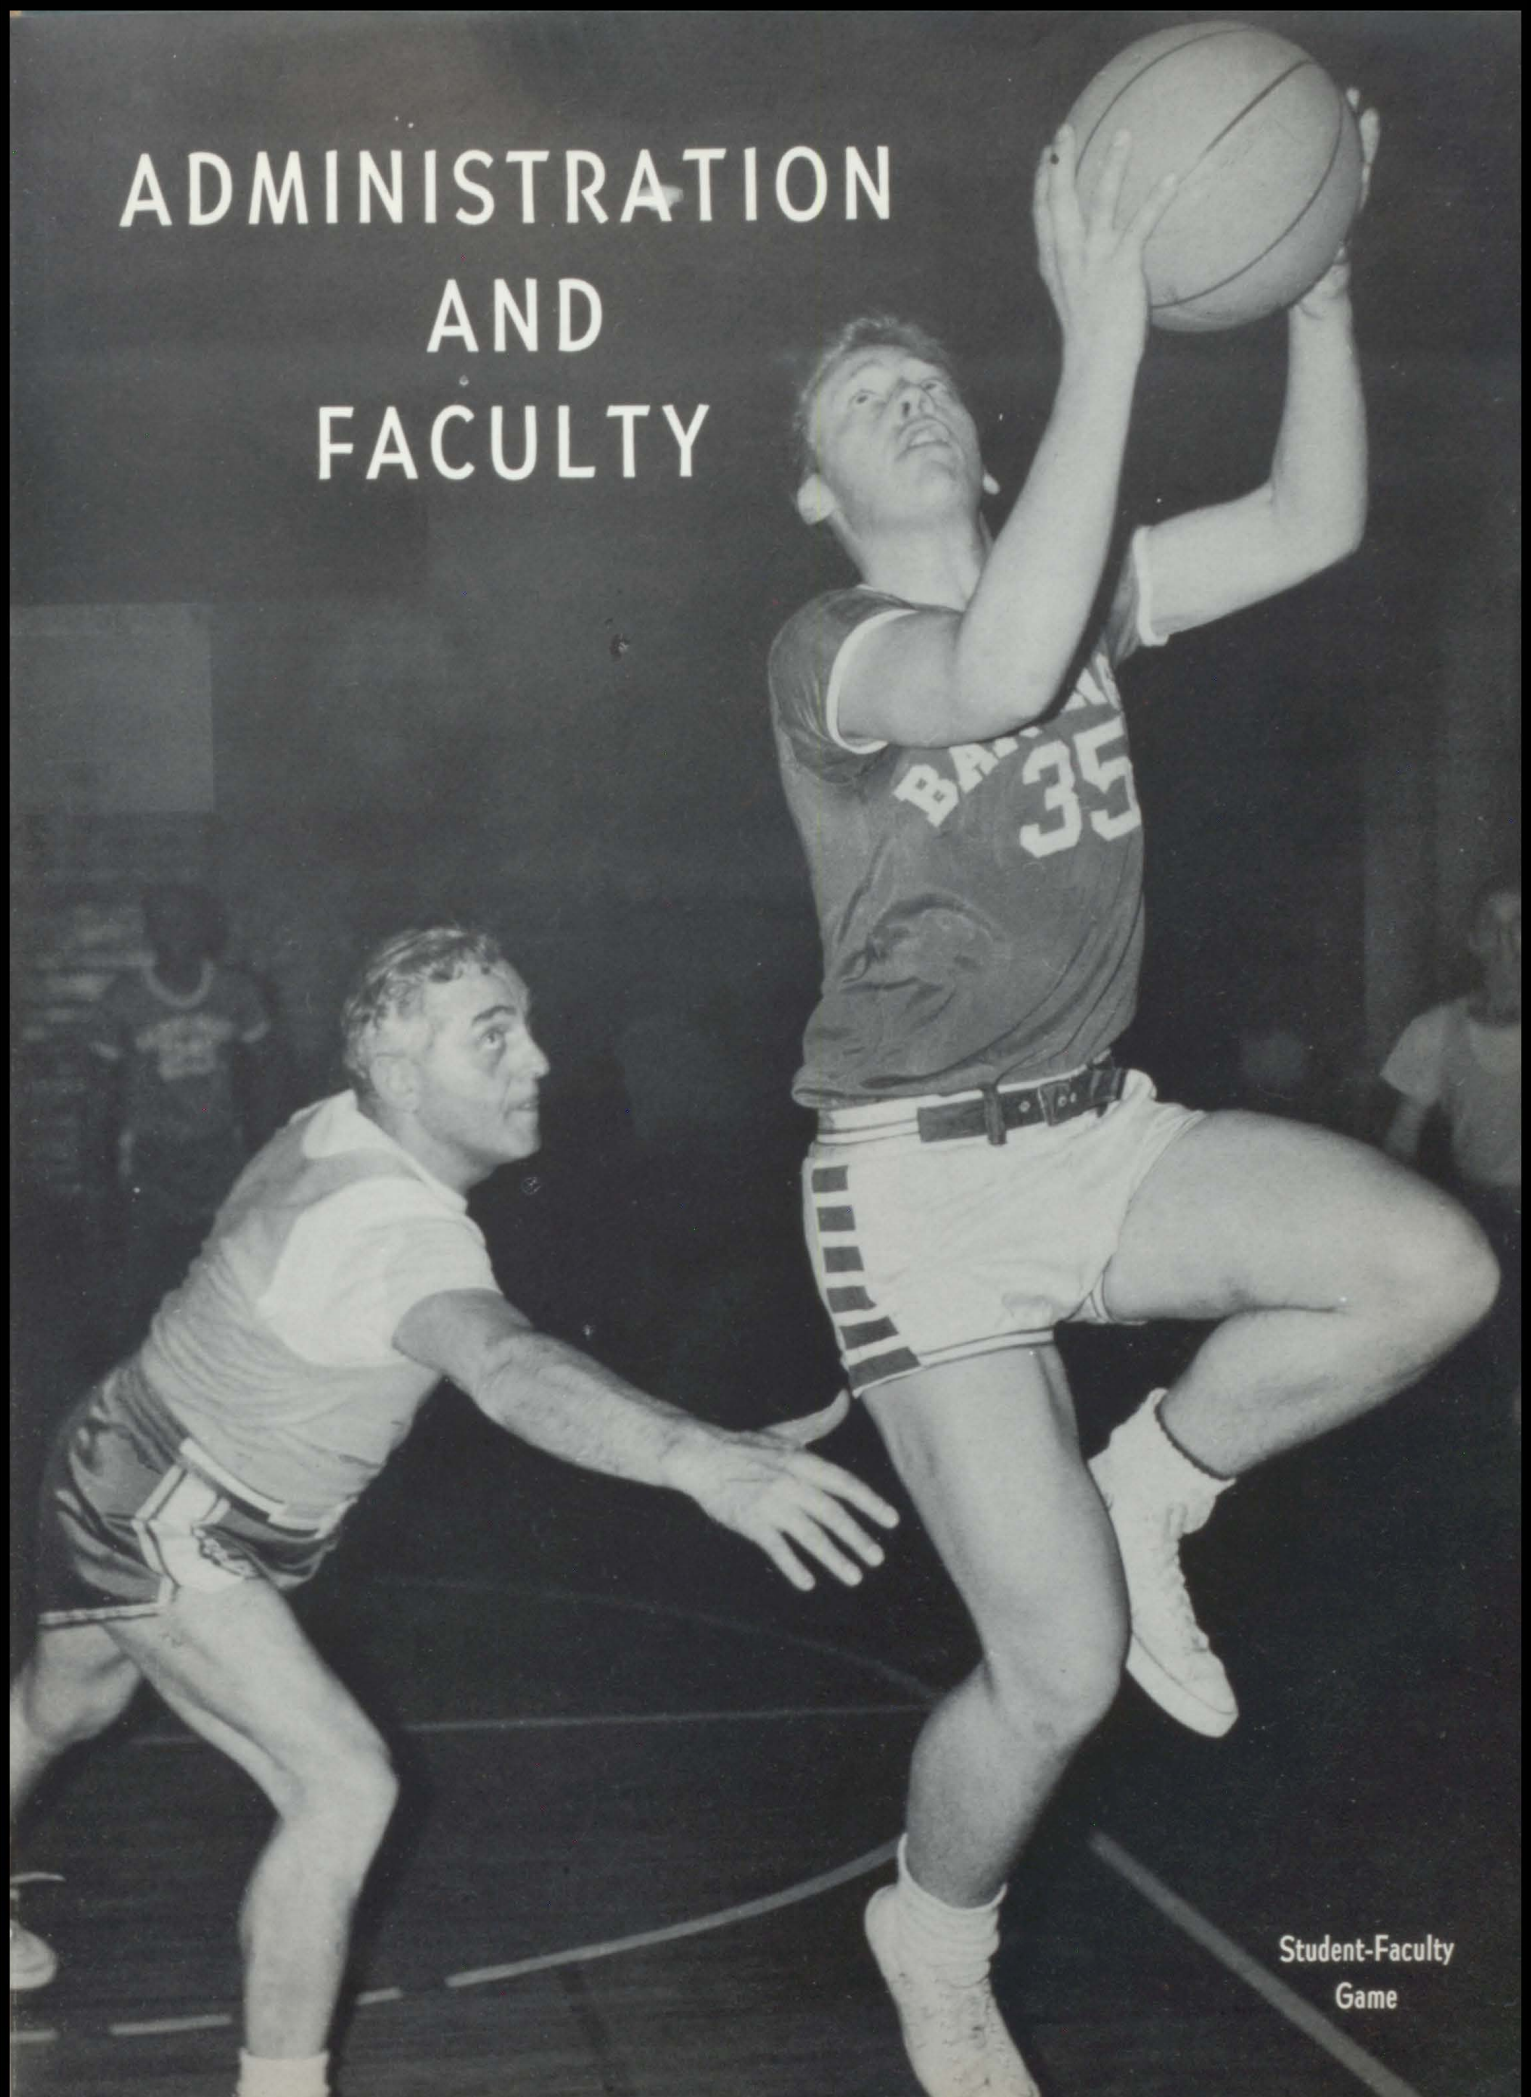

We present this yearbook to you, Miss Mildred Ferraro, as a token of deep affection, respect, and gratitude for being a friend and scholar.

*"... a charming woman can true converts make;  
We love the precepts for the teacher's sake;  
Virtue in her appears so bright and gay,  
We hear with pleasure, and with pride obey."*

BENJAMIN FRANKLIN

# ADMINISTRATION AND FACULTY

Student-Faculty  
Game

Mr. Cain has long been cognizant of the need to enlarge the cultural horizons of the student body. Being a man of quiet action, he organized a faculty chamber music group to perform at school assemblies. The students are learning "to dig" serious music.

## VARIETY IS THE SPICE OF LIFE

School administrators have to be versatile these days. Few of us are aware of the multitudinous tasks that they perform in the course of their duties. Development of school philosophy, curriculum revision, public relations, personnel supervision, student counseling, scheduling, and plant maintenance are some of their major responsibilities. The many jobs and decisions that confront school administrators in the course of one day would appall the presidents of most corporations. It is not the big decisions, however, but rather the small ones that are the most troublesome.

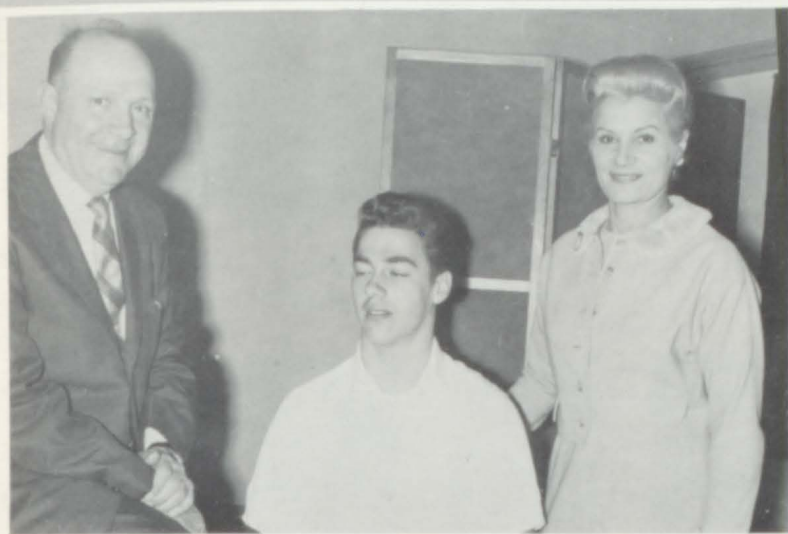

Depicted on this page are two of those "little responsibilities" that keep our school administrators hopping.

**Mr. Pat Restaino**  
ACTING VICE PRINCIPAL

Unlocked lockers lead students into temptation. So, Mr. Restaino every day takes his daily constitutional about the building and checks over the locker situation.

# IT'S NOT THE BIG THINGS; IT'S THE LITTLE THINGS!

"No really, I came to see the doctor!"

Teacher clerk, Miss Fanny Bell:  
"Yes, there is school today!"

Mrs. Marie Jones, school clerk: "Deliver me from  
the PTA and their postcards!"

School secretaries, Miss Ann Rocco and Mrs. Eva  
Goldsmith: "I didn't make the mistake. You did!"

# FACULTY

"The foundation of every state is the education of its youth."

# SENIOR ADVISERS

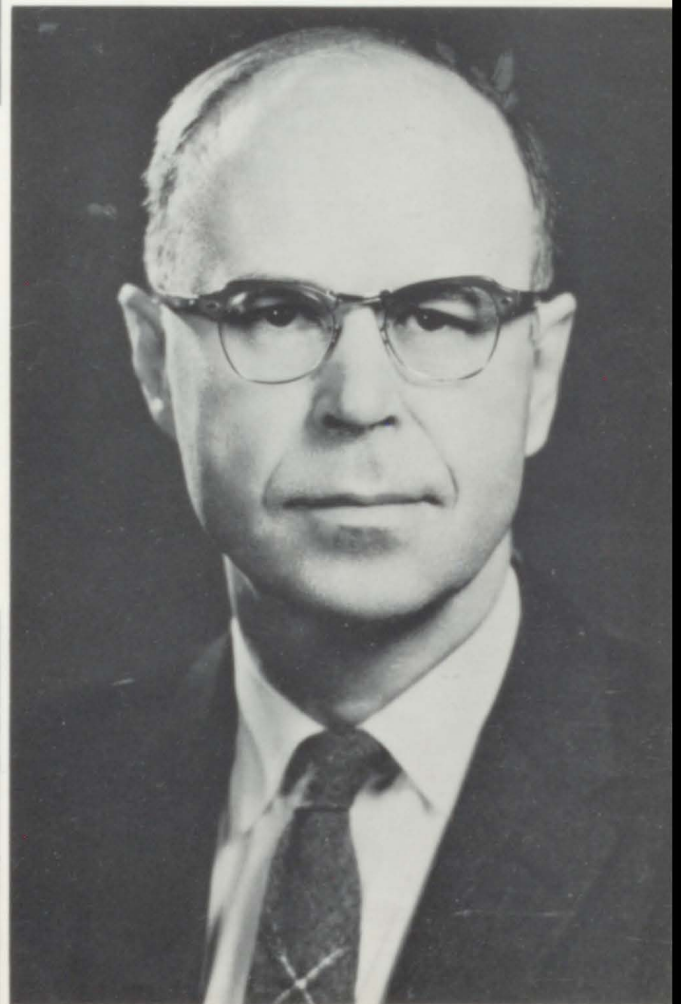

**MISS LUCILLE AUGUSTUS**

Miss Lucille Augustus' respect for democracy as well as her progressive and liberal attitude were manifested in her wise counseling of the class. Her gracious charm and tact eased many a tense and difficult impasse.

**MR. DONALD C. McEWAN**

His quiet and firm dedication to his responsibilities as our adviser held the senior class on a steady and reliable course. Mr. McEwan's integrity and sense of fairness made him always approachable and amenable to reasonable discussion.

# MOM AND DAD JOIN THE BIG BLUE TEAM!

Father and Son Association hold sixth annual sports dinner honoring Barringer athletes.

Yes, mom and dad have joined with great enthusiasm the Big Blue, and they have gone to bat on many an occasion to promote the best interests of free public education.

The Father and Son Association and the Parent Teachers Association have worked hand in hand to establish better relations among students, parents and the faculty, to raise and improve academic standards, and provide greater opportunities and facilities. In cooperation with the North Ward Citizens Committee for Better Schools, these organizations have effectively and strenuously fought for a new Barringer High School.

We, the students, are most grateful for their efforts, time and financial contributions.

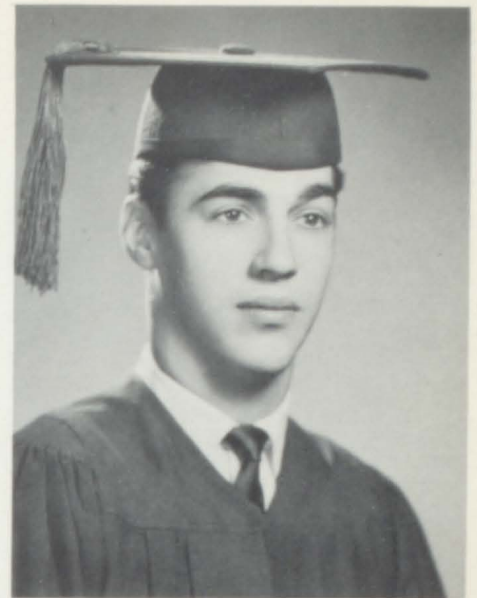

The fightingest PTA in town for superior education is the organization of our moms and dads. At most recent meeting, parents evaluated school's program of education.

## DEMOCRACY AT WORK

Senior class officers discuss financial problems with their adviser, Mr. Donald McEwan. Rising costs and declining revenues are the predicament under review.

Beverly Sheedy portrays Lady Macbeth in the dramatic sleep walking scene.

If we are to develop a cosmopolitan attitude, we must learn to understand the culture of others. Students salute Ireland in a rousing Irish jig.

# THE HUMANITIES

Man Does Not Live By Bread Alone

Young artists are flocking to studio art and ceramics courses. New forms of expression are enthusiastically adopted.

Jerome Kern was a student at Barringer. Here, students are learning musical theory and composition.

The whole man must be educated. This is the philosophy of Barringer High School. It is vital to learn how to live and to explore the meaning, the purpose, and significance of life. The arts give us insight into the beauty of nature; it makes us aware of the colorful hues and form that exists in our universe.

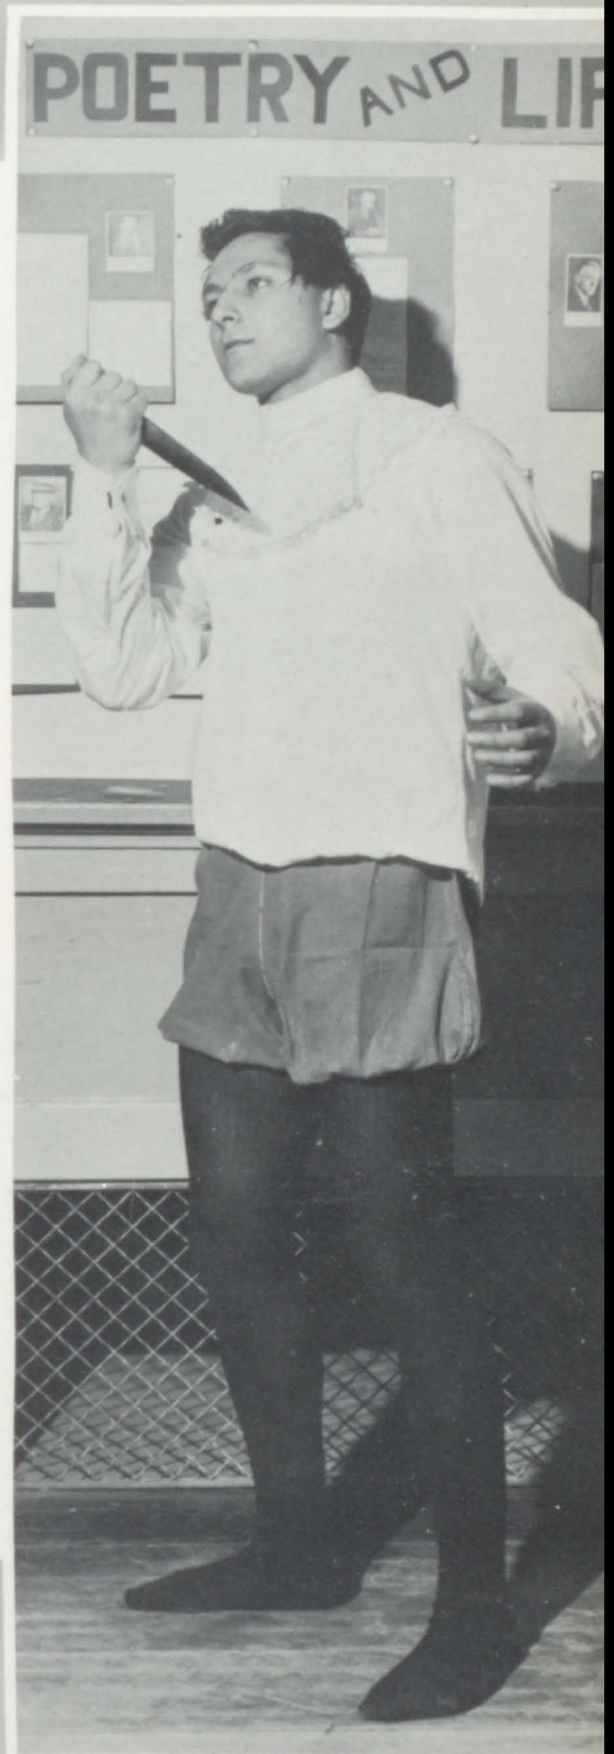

Life would indeed be bleak without the sound of music. Students are encouraged and taught to perform as well as to appreciate the finest of musical composition.

Throughout the history of man, he has been inspired to write down his profoundest thoughts, criticism, and enlightening ideas. World literature is a feast of provocative and inspiring thought. Being exposed to man's greatest thoughts and ideas assists the student to construct his own philosophy of life and a sense of values.

World wide communication is essential to American security. Now instructional techniques are developing glib linguists. To speak the language is to understand the people.

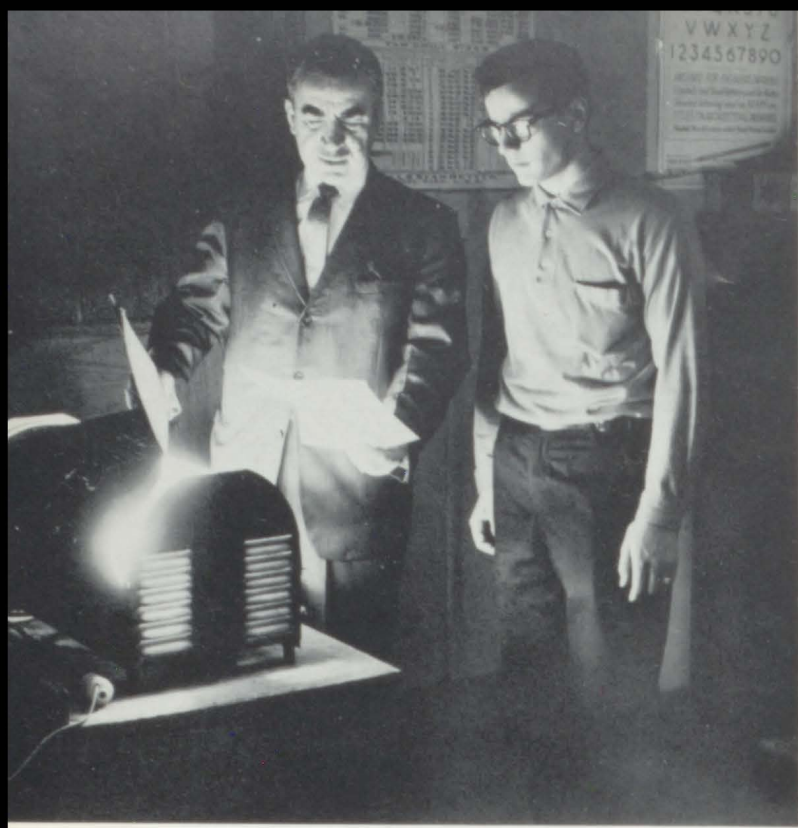

Italian 6 students learn conversational Italian with the aid of the ingenious language laboratory, developed by Dr. Giannini.

Larry Marcantuono plays the coveted role of Hamlet. "Tis a consummation to be devoutly wished."

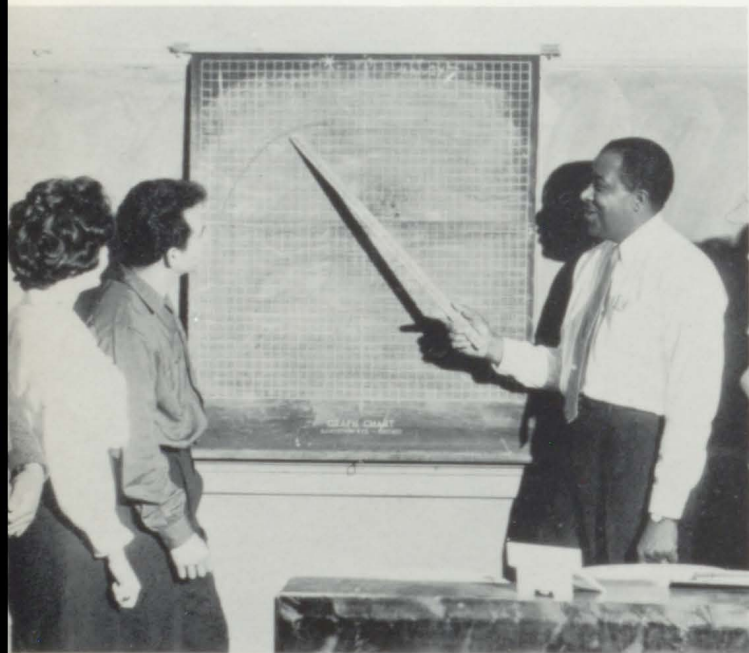

Future engineer Michael DiDomenico gets the thrill of making his own blueprint under the watchful gaze of Mr. Venierro.

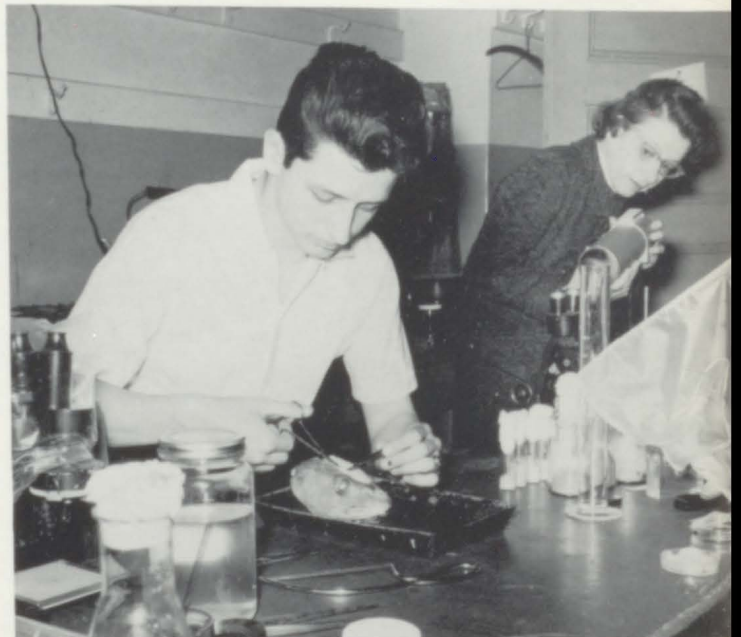

This gadget is not a pin ball machine, but a radarscope that monitors the surrounding area of the school.

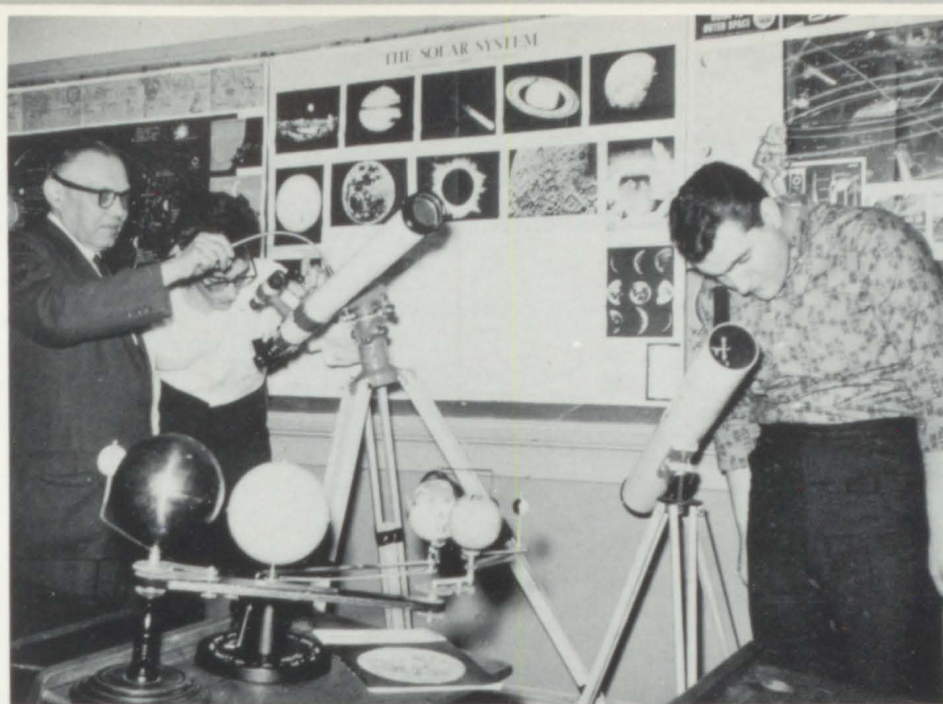

## SCIENCE AND TECHNOLOGY FORM THE

Trig class explores Trigonometric graphs to determine the amplitude and period.

Dissection can be gory and messy and probably that accounts for Michael Galdo's absorption.

Mr. Joseph Getman opens the door on the mysteries and the fascination of the solar system.

## BASIS OF AMERICA'S STRENGTH

Science and technology have made possible America's industrial revolution, and it is the productive capacity of this country that has given us the highest standard of living in the world and the greatest economic power. Science and modern engineering has supplied this nation with the military weapons to deter an enemy attack. Science is not only our key to security and survival, but it is indeed our hope.

It is therefore no wonder that science and mathematics are greatly emphasized in this school's curriculum. Three years of college preparatory math is offered as well as six semesters of vocational math. Seven varied courses in science are offered to the student body. Special emphasis is given to those who are scientifically inclined with special science workshop projects, clubs, and advanced courses. An integrated science course, combining one year of physics and a year of chemistry is a pioneering step in science education for the state.

John Morrone and Andrew Robin attempt to change Frequency of Quartz.

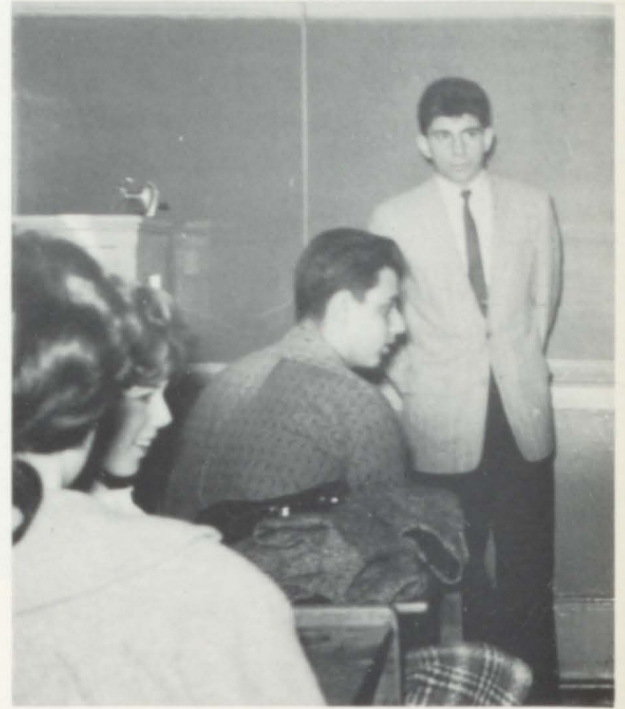

# THE NEW FRONTIER REQUIRES

Mr. Louis Glickman of the Anti-Defamation League lectures to an advanced section of United States History 4 on the subject of prejudice.

Student Council president, Kenneth Santucci, conducts poll of the class representatives to determine outcome of an issue. Principles of democracy are learned quickly in this incubator of democracy.

United States History 4 students check out members of the Kennedy cabinet.

# EFFECTIVE CITIZENS AND LEADERS!

The Social Studies department is motivated by a dedicated sense of mission and purpose. Students readily testify to the "esprit de corps" and driving enthusiasm of the staff. The teachers of this department are aware of the fact that a democracy cannot exist if the citizens are apathetic and indifferent. The base of this republic is its system of free public education. Social studies teachers are indeed apostles of democracy.

Miss Shahnaz Onwar Ali, an exchange student from Lahore, Pakistan, answers probing questions in International Relations class.

World History students with great skill constructed a scaled model of the Greek Parthenon.

# THE PURSUIT OF HAPPINESS AND SELF

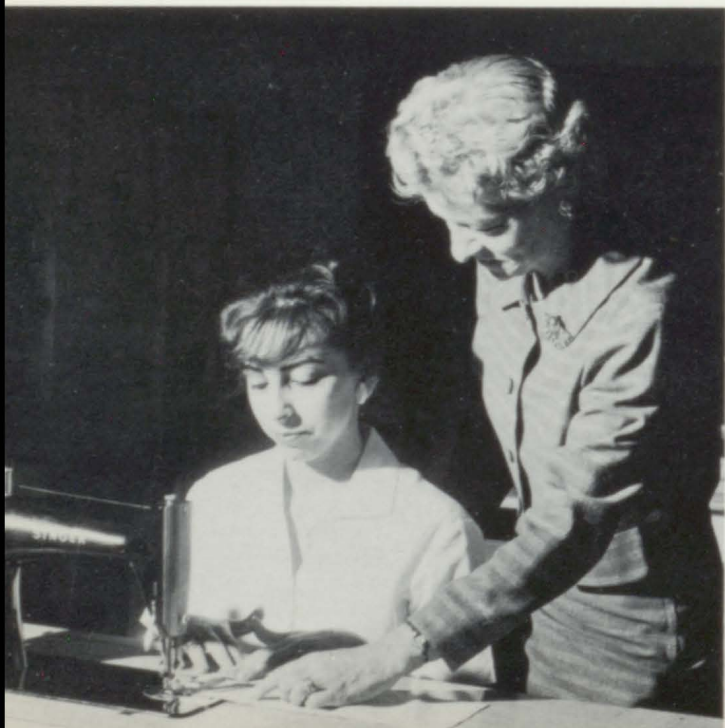

Personal hygiene and good grooming are essentials to success. A representative of a modeling school gives girls some pointers in special assembly.

"Life, liberty and the pursuit of happiness" are inalienable rights granted by our constitution. Without life, liberty and happiness are meaningless. Life and liberty make the attainment of happiness possible. A sound, responsible educational program must meet the needs of the individual and help to develop him to his fullest potential.

Public Health class discusses in depth the problem of water pollution.

Do it yourself. It's cheaper than Orbach's!

Machine steno secretaries take dictation for later transcription.

# FULFILLMENT ARE PRIMARY GOALS

The advanced chefs' cooking class prepare a picnic lunch. Where's the champagne?

Hi-Fi cabinets, coffee tables, home bars, bookcases, and record cabinets are among the items produced by these eager beavers of advanced shop classes.

Home nursing and child care are two must classes for girls.

Vocational aptitude tests are administered by the New Jersey State Employment Service.

The Ice Skating Club is the most popular organization in the school, boasting one hundred members.

Audio-Visual Aids Club are busy lads showing films, filmstrips, and setting up audio equipment.

## CLUB ACTIVITIES DEVELOP ALL INTERESTS

This semester's activity bulletin board officially lists thirty-three clubs and organizations serving the varied interests of the student body. All of these clubs meet after school, and no time is detracted from the school program. Attendance is strictly voluntary. The activity whirl at Barringer is at a fast and lively pace.

Pictured here are but a few of the organizations at work; the editors regret that our space is limited.

Creative Writing Club evaluates criticism of an original sonnet.

This rocket was propelled a distance of 2,000 feet into space, a proud accomplishment of the Rocketry Club.

Future Physicians Club plan field trip to Clara Maass Hospital.

Vice principal Mr. Pat Restaino gives the orders of the day to the outstanding service club, The Boys' Leaders.

Prolific Acropolis staff publishes eight issues a year, and the oldest high school literary magazine in the country.

Mr. Giacinto of Merck & Company lectures to the Science Club on occupational opportunities in the field of chemistry. Each week this club featured an expert scientist.

"When The Saints Go Marching In, I Want To Be In That Number!"

## MUSIC GIVES WINGS TO THE SOUL!

It's smooth and gentle from Jerome Kern to Frederick Loewe when the Blue Jackets perform.

Advanced Chorus sings the difficult oratorio, "King David," by Arthur Honegger.

Orchestra under the dynamic baton of Mr. William Greenfield interprets "Der Rosenkavalier Waltzes" by Richard Strauss.

# IT'S A CRIME!

Starring Mike Hammer Galdo, Editor at Large

The crime . . . one adviser rubbed out . . . cause unknown.

Sleuth Mike Hammer Galdo, detective and lover (in that order), seeks out the guilty parties. "When in doubt issue a 763!"

"My name is Anne Sue Sierchio. And I am the organization!"

"You can't blame me. I wasn't there!"

"So, I lost some ads. Is that any reason for him to flip his lid?"

"We took pictures, and nothing developed!"

"I'm not talking. I plead the fifth."

"We have plenty of ideas, but no talent!"

"No one questions me! Will you get out of my hair."

"No one cuts my pages and gets away with it!"

Words are inadequate to express the depth of feeling of classmates and teachers at the passing of one who was "younger than springtime."

To all who knew Dolores, immortality encompasses memories . . . The memory of her warm smile; her facility for making friends; her enthusiastic approach to learning; her fragile grace . . .

To complement the sincerity of our simple words, we defer to Charles Dickens' imperishable words:

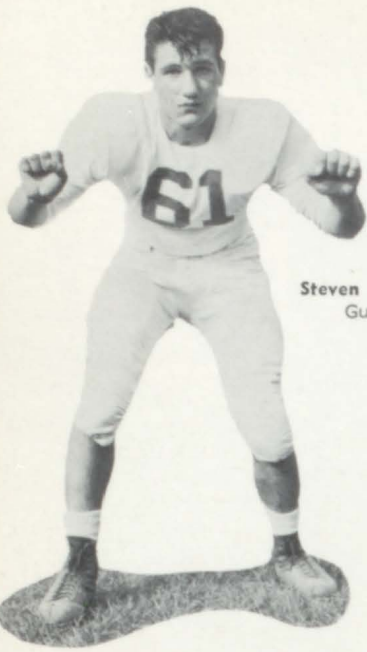

*"When Death strikes down the innocent and young, for every fragile form from which he lets the spirit free, a hundred virtues rise, in shapes of mercy, charity, and love, to walk the world, and bless it."*

# TWIRLERS HONOR MASCOT, CINDY

The Barringer High School mascot is the English bull dog. According to the school historical records, dating back into the last century, the bull dog was chosen, because this canine is known for its tenacity and pugnacity. This pure bred animal is brave and fearless, but loyal and gentle to those who befriend him. The English bull dog seldom gives up, and it is respected for its intelligence. For these reasons, thousands of Barringer alumni have been traditionally proud of our mascot. Folks, we proudly introduce you to our "Cindy."

### **Definition of a Boy**

A boy is a bank where you may deposit your most precious treasures—the hard-won wisdom, the dreams for a better world. A boy can guard and protect these, and perhaps invest them wisely and win a profit—a profit larger than you ever dreamed.

A boy will inherit your world. All your work will be judged by him. Tomorrow he will take your seat in Congress, own your company, run your town. The future is his, and through him, the future is yours. Perhaps he deserves a little more of your attention now.
